ABOUT ME

MERN Stack Developer with 2 years of hands-on experience in designing, developing, and deploying full-stack web applications using MongoDB, Express.js, React.js, and Node.js. Proficient in building secure and scalable back-end systems with tools like Mongoose, bcrypt, JWT, and Multer, and crafting responsive front-end interfaces using React, Redux, React Router, Axios, and React Hook Form. Skilled in API testing and debugging using Postman, and experienced in integrating third-party services like Cloudinary for image management and deploying applications using AWS. Strong focus on writing clean, maintainable code and delivering reliable, user-friendly solutions that meet real-world business needs.
